Professional Summary

Dynamic and detail-oriented Frontend Developer with 2 years of hands-on experience in creating responsive and user-friendly web applications using HTML, CSS, JavaScript, and ReactJS. Adept at collaborating with cross - functional teams to deliver projects on time and within scope. Passionate about learning new technologies and continually improving technical and creative skills.

Core Skills

- Experienced in translating wireframes, mock-ups, and design prototypes into responsive web pages using HTML, CSS, and JavaScript, with a focus on clean, maintainable, and efficient code in ReactJS.
- Skilled in collaborating with cross-functional teams, including designers, backend developers, and QA engineers, to ensure project alignment and timely delivery.
- Adept at utilizing project management tools like Jira for task organization, prioritization, and tracking, and participating in sprint planning and daily stand-up meetings.
- Strong background in conducting comprehensive website audits, preparing detailed reports, and ensuring high standards of code quality, performance, and security through regular code reviews and testing.

Experience

Web Developer
2Toucans, London (April 2024 -present)

- **Develop and Maintain Websites:** Utilize Drupal and WordPress to build, update, and maintain dynamic websites, ensuring optimal performance and user experience.
- **Client Interaction:** Attend client meetings to gather requirements, provide updates, and ensure client satisfaction with the ongoing projects.
- **Task Management**: Create and manage tasks in project management tools, ensuring timely delivery and adherence to project timelines.
- **Website Audits and Reporting**: Conduct comprehensive audits on websites to identify issues and areas for improvement, preparing detailed reports with actionable recommendations.
- **Training and Mentorship:** Train and mentor interns, providing guidance on web development best practices, tools, and technologies to help them grow their skills.
- **Quality Assurance:** Ensure high standards of code quality, performance, and security through regular code reviews and testing.

Junior Web Developer:
zerobulb, Kochi (January 2019 to February 2022)

- **Frontend Development:** Translated wireframes, mock-ups, and design prototypes into functional, responsive web pages using HTML, CSS, and JavaScript.
- **ReactJS Development:** Wrote clean, maintainable, and efficient code using ReactJS to build interactive features and components.
- **Team Collaboration:** Collaborated with designers, backend developers, and QA engineers using task management tools for alignment and coordination.
- **Backend Development Assistance:** Assisted in backend development using the Python Django Framework.
- **Code Reviews & Version Control:** Participated in code reviews, utilized Git for managing code changes, and followed branching and merging strategies.
- **Documentation & Communication:** Documented code and development processes; effectively communicated with team members and stakeholders to gather requirements and provide updates.
- **Task & Project Management:** Utilized Jira to organize, prioritize, and track tasks and projects. Participated in sprint planning and daily stand-up meetings.
- **Process Improvement:** Proposed and implemented improvements to development processes, workflows, and tooling to enhance team productivity.
